

# UBC Summer Institute on Addiction

## Innovative and Practical Professional Development

**July 9-11, 2014**

**Liu Institute for Global Issues, UBC Point Grey**

This summer, invest in your professional practice with three days of learning at UBC Point Grey.

Join other professionals working in the field of addiction and benefit from practical resources, tools, and knowledge in order to enhance your practice and your patient care.

This interprofessional event is of value to all health and helping professionals with some knowledge and experience in the addictions field who are looking to update and deepen their professional practice.

Key themes in this interactive three-day event include:

- gambling addiction
- trauma-informed practice and links to motivational interviewing
- addiction and pain
- pharmaceutical approaches to addiction treatment
- intercultural considerations to support care.

*This summer institute can be applied as an elective to the UBC Certificate in Collaborative Practice for Health Professionals.*

### **Special Event: Gambling on the Brain - New Perspectives on Brain Science and Gambling Addiction**

Find out how neuroscience research is informing addiction practice and policy, and learn more about supports available for individuals and families.

**FREE Public Session, UBC Robson Square**  
**July 8, 2014, 6:30-9pm**

**[cstudies.ubc.ca/addiction](http://cstudies.ubc.ca/addiction)**  
**604.827.4234**
